

JILPT Research Activities

Research Reports

The findings of research undertaken by the Japan Institute for the Labour Policy and Training are published in Japanese as research reports, discussion papers, research series and research material series. Below is a list of the reports published from November 2007 to May 2008. The complete text in Japanese of these reports can be accessed from the JILPT website, and we are currently working on uploading English abstracts of these reports to the JILPT website as well.
