

## Cross Tabulation

The 1st Survey on Working Life (1999)

Q3 There are many different career paths in the world. Choose one you think is most desirable from below.

	(a) A career path in which one works for a single company for a long period of time until one gradually obtains a management post.	(b) A career path in which one experiences a number of companies until one eventually obtains a management post.	(c) A career path in which one works for a single company for a long period of time to become an expert in a certain field.	(d) A career path in which one experiences a number of companies to become an expert in a certain field.	(e) A career path in which one is employed at first but later becomes independent.	(f) A career path in which one works independently from the beginning.	(g) None of the above.	Don't know	Actual number
