Family Income and Expenditure Survey (April 2019)

June 7, released by the Ministry of Internal Affairs and Communications

The average monthly income for a worker's households with 2 or more family members was up 1.1% in real terms from the previous year. The change over the year of wages & salaries was 2.5% in real terms from the previous year (household heads: 2.4% in real terms, spouse of household: 18.2% in real terms).

The average of consumption expenditures for a worker's household with 2 or more family members was down 0.3% in real terms from the previous year.

Revised forms of account books have been introduced to half of the sample households on January 2018, therefore results including "Change over the year" and "Contribution" in data tables might have gaps from the figures by the previous survey schedules.

To resolve this discontinuity, "discontinuity-adjusted figures" are calculated by "Inverse-Probability-Weighting" using "propensity score", for valid comparison with results of previous years.
