

Economy

The Japanese economy is on a moderate recovery. Concerning short-term prospects, the economy is expected to recover, supported by the effects of the policies, while employment and income situation is improving. However, attention should be given to the uncertainty in overseas economies and the effects of fluctuations in the financial and capital markets (“Monthly Economic Report,”¹ November, 2017).

Employment and unemployment (See figure 1)

The number of employees in October was 620 thousand increases over the previous year. The unemployment rate, seasonally adjusted, was 2.8%.² Active job openings-to-applicants ratio* in October, seasonally adjusted, was 1.55.³

* Active job openings-to-applicants ratio: An indicator published monthly by MHLW, showing the tightness of labor supply and demand. It indicates the number of job openings per job applicant at public employment security offices.

Figure 1. Unemployment rate and active job openings-to-applicants ratio (seasonally adjusted)

Wages and working hours (See figure 2)

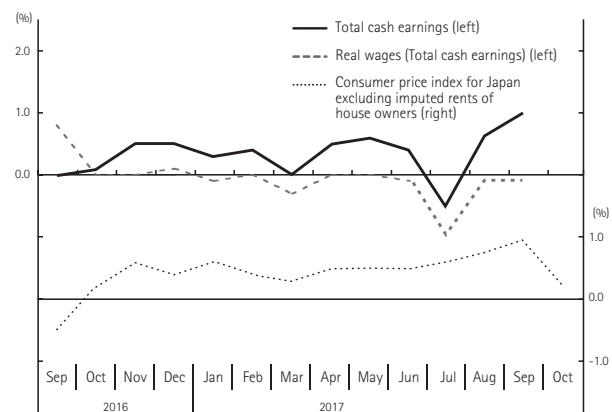

In September, total cash earnings (for establishments with 5 or more employees) increased by 0.9% and real wages (total cash earnings) decreased by 0.1% year-on-year. Total hours worked were on a par year-on-year, while scheduled hours worked decreased by 0.2%.⁴

Consumer price index

In October, the consumer price index for all items increased by 0.2% year-on-year, the consumer price index for all items less fresh food rose by 0.8%, and the consumer price index for all items less fresh food and energy increased 0.2 % year-on-year.⁵

Workers’ household economy

In October, consumption expenditure by workers’ households increased by 2.6% year-on-year nominally and by 2.3% in real terms.⁶
