Source: Statistics Bureau, Ministry of Internal Affairs and Communications, **Labour Force Survey**

Notes: Occupational categories were revised in the 1980 national census, and Labour Force Survey accordingly changed as follows from January 1981:

1) Previous "sanitation workers" included in the "protective service workers and service workers" category were included among "labourers".

2) Previous "mining and quarrying workers" were renamed "mining workers".

3) Previous "unskilled workers" were renamed "laborers."

4) From 1980 and thereafter, Okinawa is also included.

5) Figures in ( ) refers to the percentage of all employees in 2010.
